

Merry Mixer | Single Block

Cutting

Cut out the following strips from your fabric:

Fabric A: Cut **one 9" strip**

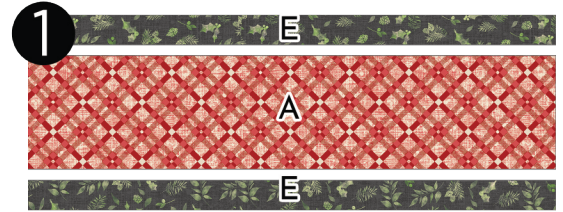

Fabric B: Cut one 6-1/2" strip. From this Cut **two 6-1/2" squares**.

Background (E): Cut **two 2-1/2" strips**

All seams are assumed to be a scant 1/4" unless noted otherwise.

Sewing

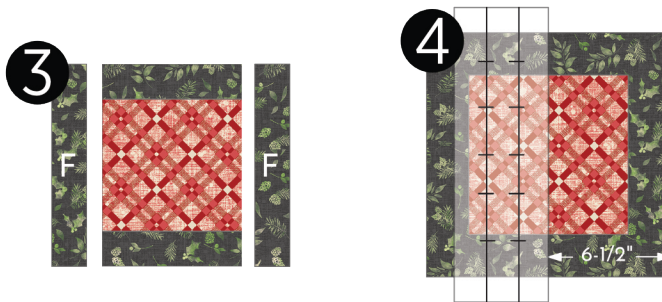

1 Using **one Strip A** and **one Strip E**, stitch together long sides. Press seams away from Strip E. Repeat on the opposing side with a **second Strip E** (Image 1).

2 After trimming selvage edges, cut your strip set down into 9" wide blocks, as shown in Image 2. Cut 1 unit.

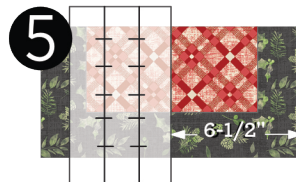

3 Take one unit from Step 2 and sew **one Rectangle F** to the long edge as shown in Image 3. Press seams toward the background. Repeat on opposing side with **another Rectangle F**.

4 Place this unit on a cutting mat. Measure in 6-1/2" from the edge (make sure that this is center), and cut the block in half as shown in Image 4.

5 Setting one half aside for now, turn the remaining half-unit and cut in half again at 6-1/2" as shown in Image 5. This will create four Quarter Units.

6 Using two Quarter Units and two B Squares, lay out one block as shown below (Image 6). Sew one quarter block to one Square B. Press seams toward Block B.

Repeat this step for the bottom half of the block.

7 Nesting the center seams, sew these two units along the long edge to finish your block (Image 7). Press seams open.
